ToolManagerIQ™ v2.5 Details*

ToolManagerIQ™ is a SQL database for managing cutting tools, tool holders, tool assemblies, fixtures, and suppliers.

Use it as a stand-alone version, or integrated with GibbsCAM. The SQL database can be installed on a local computer, or on a server, somewhere on the LAN.

ToolManagerIQ™ allows multiple users in GibbsCAM to share the same tooling data.

Platform Support

ToolManagerIQ™ runs on Windows 10 and is compatible with GibbsCAM 12 or higher.

ToolManagerIQ™ requires SQL-Express to be installed on the computer (and is included with ToolManagerIQ™).

Licensing System

ToolManagerIQ™ is protected with local key software.

Languages

ToolManagerIQ™ is available in English, French, Czech, Swedish, Finnish, German, and Japanese.

Introductory Pricing*

Software	Seat Cost	Maintenance Cost
GibbsCAM Plug-in & Stand-Alone	\$2,995	\$495
GibbsCAM Plug-in Version	\$1,495	\$249
Stand Alone Version	\$1,495	\$249
